

FAMILIES WIPED
OUT IN VIENNAAustrian Capital Becomes
City of Doom From
Famine.

VIENNA, Dec. 9.—(Via Berlin London Dec. 9.)—From one of the greatest pleasure loving cities in Europe, Vienna has become a city of doom.

A great political fight has developed in Austria and the country is laboring under the most desperate famine in its history.

The country districts of Austria are conservative and reactionary in political thought and refuse to give aid to the capital city which they regard as radical.

Although the farmers and residents of small towns are not revealing in plenty, they have quantities of food which it is believed, they could spare for the population of this city. If you ask a resident of the rural districts why this country people are not helping the starving city, the inevitable answer is: "Why should we send food to strengthen the bolshevik government?"

caught in the whirlwind of death. Children have been without milk for a year. Men and women fight for crumbs. The factories are idle and the gaunt workmen walk the streets eagerly seeking a handful of food to carry home to their starving families. The cemeteries were long ago overcrowded with their growing population of corpses. And above all, this terrific horror the magnificent buildings which once made Vienna rank as one of the foremost cities of the continent in architecture, stand like grim and forbidding monuments.

Fourteen local Rotarians will attend a meeting of the Vienna organization next Wednesday. It was announced at the last meeting, and others are expected to join them before their departure.

Looks Despite Your Years

How often you have wished that you could indulge in the strenuous exercise of out door sports with the vigor and enthusiasm of youth! But the end of the week finds you all in—you are tired, listless and lack the energy to go out for a vigorous walk or a round of the links—or any other exercise that requires much physical exertion. Many a man, even in his middle forties, has a vague feeling that he is "getting old" and right at the time when he should be at the very best physically. And as he grows old, not in the sense that the years are pressing heavily upon him—but in the sense that his vital forces are wasting away faster than Nature replaces the worn out tissues.

You can carry your youth with its joys and enthusiasm into your 70's and 80's. But you must give Nature all the help you can. The best assistance you can find—except that of a sound, constructive character—is the use of
